

Technical Equipment Service Corporation (TESCO) is looking to expand our dynamic field technician team at our International Headquarters in Indianapolis, Indiana. The owners of TESCO have enjoyed over 50 years of success in servicing the petrochemical industry, primarily in petroleum terminaling facilities. Our services range from Preventative Maintenance Programs, 24-hour Emergency Call-Out Service, Full Service provider of Vapor Recovery and Vapor Combustion Units, Safety Checks of Terminal Systems, Loading Rack Installation, Repair and Modification, Electrical Installation, Repair and Modification, Terminal Piping Installation, Tank Repairs, Terminal Engineering and Consulting.

This is a full-time position. Company benefits include Personal Time, Holidays, a Full Medical Plan with optional coverage of Dental, Vision, short term and long term disability insurance, Overtime Pay, and entry into our 401k Plan.

EI&M Technician Job Description

Electrical, Instrumentation and Mechanical technicians possess the knowledge and skill to maintain operations of our customers in the petroleum industry. Technicians will refine these skills to identify potential hazards, troubleshoot problems, and to lead in job facilitation. Techs will have the opportunity to interchange between using their saavy computer skills to showing their dexterity with simple hand tools. This job runs the gamut between maintaining ones mental sharpness and their physical prowess.

Required Skill Set:

- **2 years of electrical/technical field work experience**
- **Experience working with voltages from 24vdc to 480vac**
- **Must have general understanding of wiring schematics and prints**
- **Understanding of common electrical symbols on schematics and drawings**
- **Must have complete mechanical aptitude**
- **Must be willing to travel out of town Monday – Friday**
- **Must be willing to work some weekends**
- **Must be willing/available to take emergency calls**
- **Must be self motivated with a customer service focus**
- **Must provide own hand tools**
- **Must have a valid driver's license.**

Desired Skill Set:

- **GE and Allen Bradley PLC programming experience**
- **2 year technical degree**
- **4-20 ma control loop experience**
- **Experience with Variable Frequency Drives (VFD's)**
